DENISE'S FRIENDS ARE IN TROUBLE - THEY NEED YOUR HELP!

*Sahyadria denisonii*

Denise is the popular aquarium fish the Denison's barb. She's happy in her aquarium home, but worried about her endangered friends in the wild.

NAMES: Denison's barb, red line torpedo barb, Miss Kerela, roseline shark.

RANGE: Fragmented areas in the Western Ghats biodiversity hotspot, India.

THREATS: Habitat loss, overcollection for the aquarium trade.

CONSERVATION STATUS: Endangered.

Local populations are under extremely high fishing pressure and are vulnerable to collapse without urgent conservation action.
